# **STOCK & INDICES RELEASE NOTES**

These release notes pertain to the December 2008 Monthly release of the CRSP US Stock and Indices databases.

This shipment of data utilizes the InstallShield® wizard. Because the data are compressed, data files are not accessible without first installing through the wizard. This applies to all CRSP data and software products. InstallShield® works for all three platforms: Windows, Linux, and Sun Solaris.

# DECEMBER CONSUMER PRICE INDEX NUMBER UPDATE

CRSP supplies monthly CPI numbers in the Stock and Indices Databases and standalone Indices files. In order to meet shipment deadlines, these databases were sealed prior to the release of the December CPI number.

- Monthly Return (Dec 2008): -1.0342%
- Quarterly Return: -3.910199%
- Annual Return: 0.09148412%

The numbers above correspond to a CPI level of 494.6540, based on CRSP's indexing to 100 on 12/29/1972.

Depending on your processes, you may be able to manually edit the numbers we have provided into your series. CRSP will provide a database patch to those who require the numbers to be in the Stock and Indices database in order to access it. The patch will be available in the first week of February. To request the patch, please contact Support@ crsp.ChicagoBooth.edu or call 312.263.6400, Option 2. The December number will be available in the January cut of the database that will ship in mid-February.

# AMEX ACQUIRED: NOW NYSE ALTERNEXT US

On October 1, NYSE Euronext completed its acquisition of the American Stock Exchange LLC. AMEX's new name, NYSE Alternext US, is reflected in this January 2009 data cut.

Beginning in mid-September, a number of ETF's that were formerly trading on AMEX were moved to NYSE Arca. 34 securities moved in September, 58 in October, and 316 in the November-cut shipment.

The volume of ETF's moving between exchanges affected CRSP's broad market indices that are included in all of our stock databases. The NYSE ARCA exchange increased by roughly 400 securities creating a net market capitalization increase of nearly \$140 Billion as of the end of November. As a result, we took the following actions:

- For this stock-only data cut, CRSP has added two indices:
  - 1000200 NYSE, Alternext, NASDAQ, Arca Value-Weighted Market Index
  - 1000201 NYSE, Alternext, NASDAQ, Arca Equal-Weighted Market Index
- For all subsequent stock-only data cuts, CRSP will retain the two newly added indices, and remove the following:
  - 1000080 NYSE, Alternext, NASDAQ Value-Weighted Market Index
  - 1000081 NYSE, Alternext, NASDAQ Equal-Weighted Market Index

The offerings in the CRSP Indices products do not change other than the AMEX name change to NYSE Alternext US. It should be noted, however, that subscribers who have been relying on the NYSE, AMEX, NASDAQ Market Indices (1000080, 1000081) may find that the NYSE, Alternext, NASDAQ, Arca Market Indices (1000200, 1000201) align better with the old NAN indices than will the new NAN

indices.

For information about the transition, please follow these links:

http://www.nyse.com/attachment/AmexToNYSEArcaTransferSheet.xls

http://www.amex.com/amextrader/tdrInfo/data/axNotices/2008/etf08061.pdf

# DECEMBER 2008 DATA EDITS

#### **GROUP EDITS**

BEGIN DATE	END DATE	DESCRIPTION
20070801	20080930	Reviewed and corrected all non final distributions for 20070901-20080930. Changed dividend amounts, distribution codes, distribution dates, factor to adjust price, factor to adjust shares, acquiring PERMNO and acquiring PERMCO as needed.

#### **INDIVIDUAL EDITS**

PERMNO	COMPANY NAME	BEGIN DATE	END DATE	DESCRIPTION
92814	DIREXION SHARES E T F TRUST	11/5/2008	11/5/2008	Changed begin date to 20081105 from 20081106 and added prices.
89780	LEHMAN BROS FIRST TR INC OP FD	7/29/2003	11/28/2008	Sharecode was changed from 14 to 44 for entire history.
85755	S M & A	1/29/2002	12/31/2399	Changed name to S M & A from S M & A TECHNOLOGIES INC for 20020129 to present.
88856	STEWART W P & CO LTD	11/19/2008	11/20/2008	Changed ex-date, record date and pay date to 20081120 from 20081119 for reverse stock split
50614	WINTHROP REALTY TRUST	11/28/2008	12/1/2008	Changed ex-date, record date and pay date to 20081201 from 20081128 for reverse stock split

#### FILE VERSION SPECIFICS

This table contains version specific information for the CRSP Stock Files with data ending December 2008. It contains the number of securities and information about the maximums of the event arrays.

# DATA INSTALLATION

Instructions and screen shots for installation are written for Windows. Differences related to Linux and Sun or media are noted.

### WINDOWS:

To install data, insert your DVD into the drive and from the Start Menu, select Run d:\setupwin32.exe. Click OK.

# SUN SOLARIS (DVD INSTALL):

After inserting the DVD, a file manager will open with the file, setupsolaris.bin. Double click on this setup file to begin the installation process.

## LINUX(DVD INSTALL):

Upon insertion of the DVD, a file manager will open with the file, setuplinux.bin. Double click on this setup file to begin the installation process.

	<u> </u>

# SUN SOLARIS & LINUX:

After clicking Finish, a file named crsp.kshrc must be run to set the local environment variables. At the prompt, type:

. ./crsp.kshrc <enter>

Note: If you are not using ksh, modifications will be necessary. Check with your Unix administrator.

 $\overline{\phantom{a}}$ 

#### WINDOWS:

Location of the software and data may be checked by opening CRSP Client Environment from the CRSPAccess menu. This new utility provides users a quick and simple way of both checking and switching environment variables if necessary. Where, in the past, users had to go through the Control Panel to manipulate the environment variables, this can now be done by quick editing of the Client Environment screen.

Note: For subscribers of the CRSP Compustat Merged database, an additional CCM database environment will be displayed for the location of the Compustat data.

#### UNINSTALL

For each data install, an uninstall is created on the CRSPAccess menu. Data uninstalls do not touch software environment variables. Likewise, software uninstalls do not touch data environment variables. Each uninstall is done separately. As with the install, the uninstall is wizard-driven. When uninstall is complete, users may be prompted with an option to either reboot the computer or wait until later. It is not necessary to reboot the computer after uninstalling. This reboot message may be disregarded.

#### Uninstall & CRSP Client Environment

Each time a path is modified in client environment, the action is recorded. Upon running uninstall, a *Restore Environment Variable* prompt will appear:

Restore Environment Variable		×
Ê	CRSP_WORK exists on this system and it has been modified since installation. Do you want to restore this environment variable?	
	Yes Yes to All No	

This prompt appears for each variable for each modification. Answer each prompt and continue cycling through. <u>Yes</u> is the default, which will restore environment variables back to what they were prior to the install.

Q
