## **CRSP/ZIMAN REAL ESTATE DATA SERIES RELEASE NOTES**

MARCH 2009 QUARTERLY UPDATE

### FILE VERSION SPECIFICS

- The CRSP/Ziman Real Estate Data Series contains data through March 2009.
- The data series contains 505 securities of which 150 are currently trading.
- There is one CD included with this release that may be installed on three platforms: Windows, Linux and Sun. ASCII and SAS versions of the data series are available for all three platforms, and in addition, a Microsoft Access database is available for Windows.
- Installation is done with InstallShield®. Because files are compressed, in order to access them, they must first be installed on your computer.

#### RESEARCH AND PROGRAMMING NOTES

- Prices and indices in this product begin in January of 1980. This is true even when the Ziman REIT Info table states that the REIT was in existence prior to 1980.
- The base year for the CRSP/Ziman Indices is 12/30/1994, at which point they are set to a value of 100. This differs from CRSP Market Indices which are set to 100 on 12/29/1972.
- Due to some inconsistent trading early in the time series, a few additional rules were implemented to improve the continuity of the portfolios used to calculate the indices. Please refer to Chapter 2 of the CRSP/Ziman Real Estate Data Series Guide for an explanation of universe and price selection criteria.
